

# 2021 Lakeland High School Honor Graduates

These young Cavaliers represent the best in perseverance as evidenced by their inclusion in this presentation. They have not only overcome, but excelled during a time in which self-motivation has been such a determining factor in success. We did not get to see all they had to offer because of the pandemic, but as they continue to grow and bloom, their contributions of character and talent will surely benefit us all. I assure you that, if these young people are any indication, our future is in capable, caring, and industrious hands. I hope that you enjoy learning a bit about this very special group.

# Joshua Aldridge

Parents: *Brian Aldridge & Nincy Accelin-Aldridge*

*Favorite Memory of Suffolk Public Schools: A moment I can clearly remember is when I was building a model of a body in my Biomedical Science class. Working with my partner we constructed the body using clay and tools to ethic designs into them. It was not only fascinating to build a model to better understand the parts of the body but also entertaining as I worked with my partner. Each group got to name their model, and we gave it a funny name I still laugh about today.*
