Return
Rate

- **Canvas**
- **Visual Learning Platforms**
- **Instructional Delivery**
- **Assessment**
- **Teacher Feedback**
- **Enrichment and remediation schedule**

Parent Survey

- More than 80% of parents felt teachers have been available and provided multiple assessments to check student understanding
- More than 70% agreed teachers provided adequate opportunities for additional student remediation and assistance and that the daily virtual learning schedule and time required for classwork is suitable

Parents - Areas of Improvement

- Too many applications and platforms for students to navigate
- Increased teacher live instruction time
- Timeliness in grading and feedback
- Varying course layouts

Overall Virtual Learning Challenges

#1 Student Engagement/Motivation

#2

Teachers - Distractions at Home While Doing Classwork

Parents - Limited Interaction with Classmates

#3

Teachers - Attendance

Parents - Keeping Up with Course Assignments

Next Steps...

- Students' Return to Learn
- Engagement and Motivation for students
- Greater social emotional well-being and support
- Improved attendance
- Parents keeping up with course assignments
